

## Technology for Sports Betting, Time Tracking & Controlled Access

### Why Gamble with your Time & Access Control Needs?

Time Validation for Sports Betting

Casino executives are constantly promoting great deals to attract the right audience. Whether its hotel deals, entertainment or prizes, these types of promotions are enticing to gamblers and non-gamblers. Amano wants to help you continue these efforts to increase attendance at your casinos and resorts. We'll handle your time and access needs, while you focus your attention on generating revenue. Here's how we can help:

#### **Time Validation for Sports Betting**

Amano's TS-3000i delivers accurate time & date stamped on sports book terminal winning tickets for NGC Reg. 6:090 (9) regulation. The TS-3000i automatically syncs directly to the National Institute Standards & Technology (NIST) or internal/external NTP time source. This stand-alone, zero configuration time clock runs on its own employing easy-to-use time synchronization schedules with a backup system that sends e-mail notification and SNMP trap alerts. No server software, special cabling or device is required.

#### **Improve Workforce Management with Time & Attendance Solutions**

Time Guardian Series enables you to manage the In's and Out's of your business. Amano's suite of applications range from low to high end enterprise solutions. Time Guardian Series provides the flexibility you need to punch "in and out" with various terminals. We offer badge swipe, fingerprint, hand geometry and web access. All systems are designed to seamlessly integrate with Amano's Access Control and most popular payroll applications.

#### **Control Unauthorized Visitors with Access Control**

Nexus Lite is the optimal choice for casinos requiring keyless access control. This web based system manages up to 8 doors (expandable), 16 readers with anti-pass back, and accommodates 1000 users (3 cards per user). The Nexus Lite controller delivers keyless access control using our vandal resistant, patented metal proximity reader technology. Nexus Lite is capable of reading a multitude of card formats such as HID®, Mifare and, Desfire. It seamlessly integrates with Amano's Time & Attendance systems - Time Guardian Series. The Nexus Lite Controller is available in two options: Intuitive graphical user interface or web interface (Ethernet). Also available is Nexus Lite Management software which facilitates the setup of one or multiple Nexus Lite controllers through a central location.

#### **Amano Dealer Network**

Talk with Amano today to identify the nearest Amano Dealer to you. Amano's extensive network of Certified Dealers throughout the USA, Mexico and Latin America provides help with:

- Determining your requirements and providing the most cost effective solutions
- Installing and commissioning your system
